Payment:

Up to \$375 for 4 visits, or up to
\$525 if you qualify for MRI scans

Principal Investigator:

Staci Gruber, Ph.D.
www.drstacigruber.com

- The study involves several cohorts and ranges from one to four visits depending on the cohort:
 - For some individuals, study includes four visits over the course of 6 weeks while using cannabinoid-based therapies
 - Study includes a single visit for other individuals
 - Each visit includes questionnaires, and some visits include paper and pencil tasks and an optional MRI scan. There are NO blood draws or IVs!
- This is an observational study; no products are supplied by the investigator
